ROLLS MOTIVE POWER SERIES

Rolls have been manufacturing batteries for over 60 years and have built a reputation on the reliability, durability and easy maintenance of its product.

Features and benefits for the Rolls FS Series include:

- Enveloped Separators
- Increased Liquid Reserve
- Greater Rigidity
- Greater Durability
- Less Maintenance

Designed for use in a variety of applications including:

- Aerial / Platform Equipment
- Material Handling Equipment
- Floor Cleaning Equipment
- Golf Cart & Electric Vehicles
- Traffic Management Systems

Rolls Deep Cycle AGM Series

Features:

- Sealed construction
- High density paste
- Heavy duty thick grids
- ABS case and cover
- Low internal resistance
- Microporous glass mat separator
- Available in all standard sizes

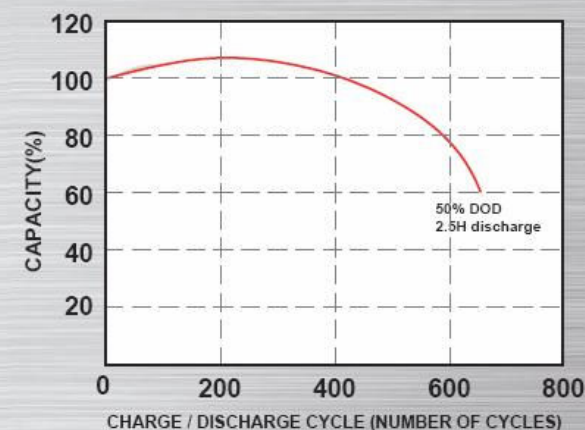

Benefits:

- Maintenance-free, spill proof, non hazardous
- High capacity and long life
- True deep cycle construction
- Rugged construction, shock and vibration resistant
- Faster recharge time
- Enhanced electrolyte retention maximises capacity
- Meets all application requirements

Rolls Motive Power Deep Cycle Battery Range

Rolls has been making deep cycle batteries since 1935 and has an excellent reputation for quality, performance and reliability. They are easily identified by their distinctive red colour case and are used in various deep cycle applications including aerial work platforms, access equipment, material handling equipment, floor cleaning equipment, golf cart and electric vehicle applications.

Features:

- Maximum running time per day with large heavy duty plates.
- Deep Cycle lead acid batteries - rugged, robust and reliable.
- 6V and 12V available.
- Capacities from 80Ah to 450Ah.
